RISK DISCLOSURES; ASSUMPTION OF RISKS; RELEASE OF Simba Exchange

Trading Tokens, and use of other Services provided by Simba Exchange, involves significant risks and potential for financial losses, including without limitation the following:

The features, functions, characteristics, operation, use and other properties of any Token ("Token Properties") and the software, networks, protocols, systems, and other technology (including, if applicable, any blockchain) ("Underlying Technology") used to administer, create, issue, transfer, cancel, use or transact in any Token may be complex, technical or difficult to understand or evaluate.

Any Token and its Underlying Technology may be vulnerable to attacks on the security, integrity or operation of the Token or its Underlying Technology ("Attacks"), including Attacks using computing power sufficient to overwhelm the normal operation of a blockchain or other Underlying Technology.

Any Token, Token Properties or Underlying Technology may change or otherwise cease to operate as expected due to a change made to the Underlying Technology, a change made using features or functions built into the Underlying Technology or a change resulting from an Attack. These changes may include, without limitation, a "fork" or "rollback" of a Token or blockchain.

Simba Exchange may suspend or cease to support the transfer, storage or trading of any Token at any time at Simba Exchange's Other exchanges and service providers may do the same.

Simba Exchange may not support so-called metacoins, colored coins or other Tokens, or their related side chains or other Underlying Technology that are based on a fork, enhancement, or derivative of a different Token or Underlying Technology ("Derivative Protocols") even if the Derivative Protocol is based on a Token that is supported by Simba Exchange. Other exchanges or service providers may do the same.

Simba Exchange may suspend or reject your transaction requests, suspend or cease support for Tokens, or suspend or terminate your access to the Services to comply with applicable laws or regulations or an order from law enforcement or other governmental authority, for other reasons as specified in these Terms or otherwise at Simba Exchange's

You may be unable to withdraw Tokens prior to Simba Exchange ceasing to support transfer of any such Tokens, resulting in the loss of any such Tokens remaining in your Simba Exchange

Since Tokens or crypto currencies to be traded on Simba Exchange are not regulated by financial market regulators, they are subject to extremely high volatility. Their value is determined solely by supply and demand on the market and can fluctuate accordingly. Any Token may, therefore, lose all of its value.

Any Token may decrease in value or lose all of its value due to various factors including discovery of wrongful conduct, market manipulation, changes to Token Properties or perceived value of Token Properties, Attacks, suspension or cessation of support for a Token by Simba Exchange or other exchanges or service providers, and other factors outside the control of Simba Exchange.

Any Token may decrease in value or lose all of its value due to legislative or regulatory activity, or other government action. Government regulation of Tokens is unsettled and rapidly evolving.

Any Token may be lost if sent to the wrong address (for example, but without limitation, if the address is improperly formatted, contains errors, or is intended to be used for a different type of Token). For more detail about sending Tokens to an address intended for a different type of Token, please see the FAQ posted

Any Token may be lost if sent to a correct address, but the recipient does not act as intended (e.g. a scam platform). You acknowledge that Simba Exchange has no possibility to charge back the Token and any transfer of Token to whichever recipient is your sole responsibility.

You may be prevented from sending a transaction request, or your transaction request or email may not be received by Simba Exchange or the Services, due to hardware, software or services issues (including, without limitation, Internet

and other network connectivity issues).

Your transaction request or email to Simba Exchange or the Services may be lost, intercepted or altered during transmission.

Unauthorized third parties may access or use your Simba Exchange Account and effect transactions without your knowledge or authorization, whether by obtaining the password to your Simba Exchange Account, obtaining control over another device or account used by you in connection with any enhanced security measures enabled for your account, or by other methods.

In case of an irregular custody of Tokens, you do not have a claim in rem to the Token. You transfer your right of disposal of this Tokens to Simba Exchange. Such tokens are in the inventory of Simba Exchange then, and Simba Exchange can freely dispose of them. You only have a contractual right to receive the same number of Tokens of the same quality and grade. Therefore, there is a risk in case of bankruptcy of Simba Exchange you do not have a claim for separation or segregation of your Token, but only a contractual claim, which you must register in an bankruptcy proceeding and will probably receive only a fraction of the value of your Token.

The risks described in this Section 4 may result in loss of Tokens, decrease in or loss of all value for Tokens, inability to access or transfer Tokens, inability to trade Tokens, inability to receive financial benefits available to other Token holders, and other financial losses to you. You hereby acknowledge that these risks fall outside the sphere which may be influenced by actions of Simba Exchange. Therefore, Simba Exchange will have no responsibility or liability for, any such risks.

You represent and warrant that you have: (a) the necessary technical expertise and ability to review and evaluate the security, integrity and operation of any Tokens that you decide to acquire or trade; and (b) the knowledge, experience, understanding, professional advice and information to make your own evaluation of the merits and risks of any Token or trade. You accept the risk of trading Tokens by using the Services, and are responsible for conducting your own independent analysis of the risks specific to the Tokens and the Services. You should not acquire or trade any Tokens unless you have sufficient financial resources and can afford to lose all value of the Tokens.

Simba Exchange's decision to support the transfer, storage or trading of any particular Token through the Services does not indicate Simba Exchange's approval or disapproval of the Token or the integrity, security or operation of the Token or its Underlying Technology. The risks associated with Tokens and trading Tokens apply notwithstanding Simba Exchange's decision to support a particular Token. Simba Exchange does not provide trading advice, does not have any fiduciary duty to you or any other user and does not make any warranty about the suitability of any Token for trading or ownership by you.
